

PI-25

Single Port 2.5 Gigabit 30W PoE/PoE+ Injector

OVERVIEW

The Single Port PoE+ (Power Over Ethernet) Injector delivers both data and electrical power to PoE enabled devices using standard Ethernet cable. This eliminates the need to place devices (i.e. wireless access points) near a power outlet, allowing for greater AV installation flexibility, while also reducing AV installation and labor costs. Power Cord included in this kit. Your Ethernet cable is required.

FEATURES

- IEEE 802.3af/at compliant
- Delivers up to 30 Watts of power
- Supports data rates up to 2.5Gbps
- Built in power supply
