Enhanced Plastic Enclosures

ENHANCED DESIGN. WI-FI READY.

Constructed with a robust, wireless transparent plastic material, these low-profile and affordable enclosures are designed to integrate wireless devices into traditional structured wiring installations.

New enclosure design enhancements will save you valuable time and money all while still providing a clean, centralized location for the home's wired and wireless services.

Features & Benefits:

- **Time-saving Installation:** Reversible door snaps quickly and easily into trim ring without tools, swings a full 180° for optimal installation space
- **Conceals Drywall Cutouts:** Trim ring comes free with each order, essential in concealing messy drywall cutouts for a clean, professional look
- **Wi-Fi Transparency:** Made with ABS plastic, the enclosure is designed to integrate wireless devices without interference
- **Universal Mounting Grid:** Maximizes compatibility with 3rd party products without additional brackets
- **Thermal Management:** Extra venting along the vertical plane of the door allows for superior heat dissipation
- **Cable Management:** Top and bottom knockouts allow for easy cable management and power accessibility

*American flag decal not included
