

# Installation Tool

CPSNSCT-596

**BELDEN**  
SENDING ALL THE RIGHT SIGNALS®

Belden offers high quality, easy to use tools designed to deliver reliable installation of the Snap-N-Seal® ProSNS® family of connectors.

## Installation Tool: CPSNSCT-596

Specially designed for Snap-N-Seal® Standard and ProSNS® Connectors, including F Male, RCA, BNC, Right Angle, Inline Splices and Ground Blocks for Series 59 and 6 coaxial cables.

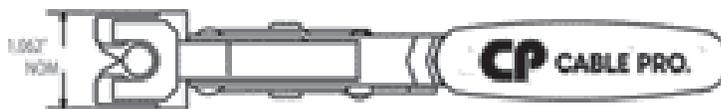

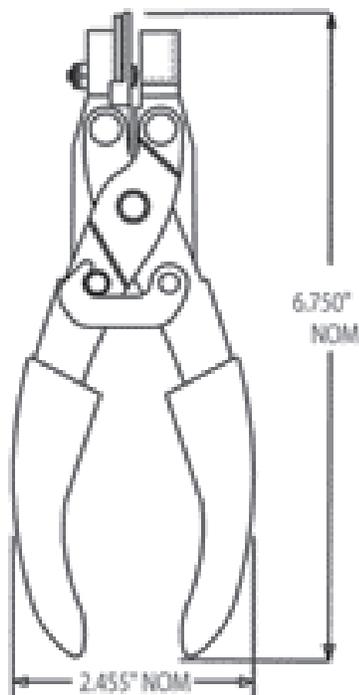

- Provides consistent results on every installation
- Plier-type tool with riveted construction
- No adapter tips required
- When you release the handle lock, it activates the built-in handle spring mechanism, opening the tool jaws
- Support plate centers the connectors
- Support plate fingers provide 300° support during connector compression
- Handle lock is provided to conveniently store the tool when not in use

### Physical Properties

- Body: Nickel-Plated Heat-Treated Metal
- Handle Grips: Plastisol
- Tool Weight: 9.5 oz (269 g)
