The Probes

Solutions for all your vehicle detection scenarios

P5050C Pkg.

The **P5050 Standard Probe System:**

- * Non-discriminatory to inbound / outbound traffic
- * Processors used: *111, 212, or 313 (12VDC)*
- * Requires *22/4 shielded direct burial wire w/ Drain*
- * Splice friendly up to 1 mile
- * Commonly used when wire installation and probe installation may not coincide.

P8000C Pkg.

The **P8000 Directional Probe System:**

- * Discriminatory to inbound / outbound traffic
- * Processors used: *212 only (12VDC)*
- * Requires *22/4 shielded direct burial wire w/ Drain*
- * Splice friendly up to 1 mile
- * Commonly used when different actions are desired for inbound vs. outbound vehicles or when an action is to be taken for vehicle travelling only in a certain direction.

P500B Pkg.

The **P500 Basic Probe System:**

- * Non-discriminatory to inbound / outbound traffic
- * Processors used: *P500 only (12VDC)*
- * Requires *any P500 series probe*
- * *Pre-attached 22/2 shielded direct burial wire w/ Drain*
Part # = **P500 - 50 / 125 / 250 / 500 / 1000**
- * Commonly used for gate operation or when wire and probe installation coincide.

P5W1 Pkg.

The **P5W1 Basic Probe System:**

- * Non-discriminatory to inbound / outbound traffic
- * Same processor and probes as above
- * White ABS enclosure
- * Purchase with 500 mA or 1.5A power supply
- * Commonly used for driveway annunciation when control box is to be indoors.

WP5C Pkg.

The **WP5 Low Probe System:**

- * Non-discriminatory to inbound / outbound traffic
- * Processors used: *WP5 only (9VDC)*
- * Requires *any P500 series Basic Probe*
- * **WP5B - Pkg. w/ no wireless** : **WP5C - Pkg. (2000 ft.)** : **WP5CLR - Pkg. (4000 ft.)**
WP5CDE - Pkg. Dual Entrance (2000 ft.) : **WP5CDELR - Pkg. Dual Entrance (4000 ft.)**
- * Commonly used when trenching wire is impractical or undesirable.

*Package systems include all components needed except wire.

*Probes are purchased separately for Basic probe systems.

*All components of package systems may be purchased individually. *All probes are designed for direct burial beside a 14 foot wide driveway.
