Simon® XTi-5 Version 2

Keeping families connected, protected and a whole lot more.

The Simon XTi-5 Version 2 self-contained security system has a brand new look, featuring a selectable graphical interface which uses friendly icons that are easy to understand and operate. Simon XTi-5 Version 2 is simple, affordable and enhances your safety and the security of those things that matter most.

Safe

Two-way communication – microphone for emergency two-way communication with monitoring station personnel

Battery backup – backup power supply keeps the system operational during power failures

Effective

Emergency fast-action buttons – in monitored systems quickly summon Fire, Medical or Police assistance

Integrated siren – siren is compliant with UL listing requirements on sound output, to provide effective alert notice throughout the home

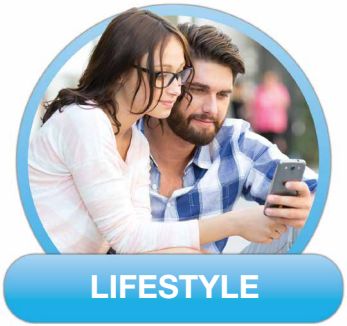
Hear clearly – speaker for voice audio status messages and prompts, live communications with monitoring station personnel and configurable “voice chimes”

Convenient

Easy to read – large 5” color LCD touch screen provides at-a-glance status of home and property. The user interface can be set to match the same look as the mobile phone security application

User friendly – simple, easy to understand and operate, icon driven, touch screen interface — great for users of all ages!

Stay connected – control lights, thermostats, door locks, garage doors and other Z-Wave®-enabled devices for enhanced convenience, safety and value



Options to make the most of your system

Make the most of your system when it's powered by Alarm.com. With optional cellular reporting and interactive features, the Simon XTi-5 Version 2 allows you to remotely monitor and control your security system for convenient and effective home protection.

Displays images on screen and online

View pictures captured with a wireless Image Sensor located remotely in the home. Images are retained and managed in a library on the Simon XTi-5 Version 2 and online for future viewing.

Remote lighting control

Ensure you come home to a brightly lit home for comfort and security. Likewise, turning off lights after you've left is easy and convenient, and helps keep utility costs down.

Designed for modern life

powered by ALARM.COM

Monitor household activity in real time

View household activity online, check in on sick or elderly loved ones, and even keep tabs on vacation properties.

Arm/Disarm Simon XTi-5 Version 2 from virtually anywhere

Communicate with Simon XTi-5 Version 2 by phone or internet to easily meet changing conditions.
