

Modular Hub Configuration Guide

UltraSync Modular Hub Modules & Accessories

Expansion Modules

Add the functions you need and eliminate those you don't. Expansion modules make it easy to add capabilities without having to upgrade your entire system. Connect up to 64 devices on an encrypted bus capable of expanding up to 2,600 ft.

Zone Expansion – Increase your number of hardwired security and life safety sensors.

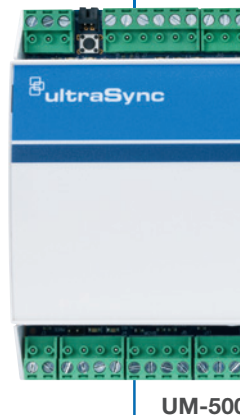

Relay Expansion – Add relay output control to your system.

Z-Wave® Expansion – Control Z-Wave lights, thermostats, door locks and other appliances, all from the UltraSync touchscreen or mobile app.

Wireless Expansion – Enable wireless sensors and keyfob capabilities.

CPU Module

The heart of every UltraSync™ Modular Hub system

UM-500

Keypads

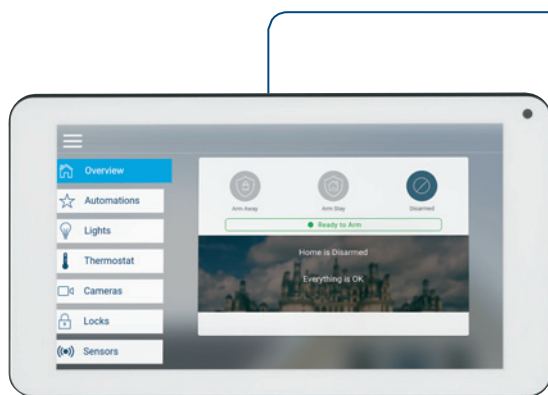

Enjoy complete control through an intuitive interface.

UltraSync 7" TouchScreen

Use up to four touchscreens to control your system from multiple locations throughout your property.

UltraSync Modular TouchScreen

Enjoy simple, fingertip control with a 3.5" colored touchscreen.

UX-TOUCH01

UM-PE

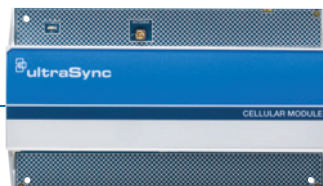

UM-W7

UM-SPS

UM-C-H1

Smart Power Supply

Provides additional auxiliary power and battery backup capacity.

Cellular Module

Provides uninterrupted connection, both in primary and backup installations. This module also features “smart roaming,” which allows the system to self-recover from network outages by connecting to the cellular carrier with the greatest signal strength. Also available for use with the commercial metal enclosure is the UltraSync Modular Hub HSPA 3G cellular antenna.

TVW-3120

RS-3230

RS-3250

Transformers

Power your system with one of the two transformer options shown below:

Part Number	Description
600-1023	Class 2 transformer, 16.5V, 40VA
600-1023-CN	Class 2 transformer, 16.5V, 40VA (Canada)

Enclosures

Each enclosure includes DIN rails for mounting the CPU and expansion modules, integrated cable management and room to install up to two back-up batteries.

Batteries

In the event of main AC power failure, a rechargeable battery provides uninterrupted power.

Part Number	Capacity
60-681	4 Amp hours
60-680	7 Amp hours
60-781	17.2 Amp hours

The UltraSync™ Modular Hub

Scalable, Customizable Security

The UltraSync Modular Hub brings together multiple components to create a flexible and scalable intrusion system that meets today's demanding requirements for residential and commercial applications. Compatible with both UltraSync Smart Business and UltraSync SmartHome products, this system can be customized to meet each installation's unique requirements.

Interlogix provides global security and life safety solutions for both commercial and residential applications—helping customers secure and protect what matters most. Interlogix is part of UTC Climate, Controls and Security, the leading provider of heating, air conditioning and refrigeration systems, building controls and automation, and fire and security solutions.
