

## ChimeCom2 (CCS-1A) Series Door Answering and Audio Monitoring Set

Residential and Commercial Applications

## Features and Benefits

### Can replace doorbell

Keep installation costs low by using existing doorbell wire and/or power.

### Easy to install

No doorbell? *No problem!* Install the ChimeCom2 system using only two wires, making installation a snap!

### Secure door answering

Safely and conveniently speak with visitors before letting them inside.

### Audio monitoring

Discreetly listen to activity at the door station with the push of a button.

### Simple to use

Answer calls with simple push-to-talk and release-to-listen operation.

### Reliable and designed to last

Have trouble-free use for years to come, even after the warranty expires!

**Upgrade any doorbell to an Aiphone intercom for 2-way communication at the door!**

## Components
