

## ELK-AERF3 319.5 MHz Wireless Receiver for E27

### APPLICATION:

The ELK-AERF3 is a one-way wireless receiver that allows the E27 Alarm Engine to support ELK's 319.5MHz wireless line of sensors. This receiver can be connected to a dedicated connector on the E27 board or to an ELK-AEXRFA RF Data Bus Adapter. It features LED indicators for status and RF signals.

### SPECIFICATIONS:

- Wireless zone capacity: 128
- Operating Frequency: 319.5 MHz
- Current Draw: 52mA

Features or Specifications subject to change without notice.

### INSTALLATION INSTRUCTIONS:

**Before installing the wireless receiver, TURN THE E27 MASTER POWER SWITCH OFF.**

1. Remove the cover from the E27 board or AEXRFA adapter and locate the 6-pin connector and 3 screw studs in the upper corner.
2. Carefully align the 6-pin male connector in the lower right corner of the AERF3 wireless receiver with the 6-pin female connector on the E27 board or AEXRFA adapter. Ensure AERF3 wireless receiver is fully seated into the connector.
3. Install 3 screws (provided) through the AERF3 wireless receiver into the screw studs located on the E27 board or AEXRFA adapter (see illustration).
4. Two antennas are included with the AERF3 receiver; a straight antenna and an offset antenna. The straight is to be used when the receiver is installed on the E27 board. The offset antenna is to be used when the receiver is installed on the AEXRFA adapter. Install the appropriate antenna in the ANT screw terminal located in the upper left corner of the AERF3 wireless receiver.

LED INDICATORS	
<b>BUS</b>	Blinks to indicate the AERF3 receiver is enabled on the E27
<b>UC</b>	Blinks once every ~3 seconds to indicate the AERF3 receiver processor is functioning normally
<b>RX</b>	Flashes when a transmission from 319.5 wireless device is received by the AERF3 receiver
<b>TX</b>	Flashes when data is transmitted from the AERF3 receiver to the E27

\*Note: SW1 and SW2 are for future use.

### LIMITED WARRANTY

The ELK-AERF3 Wireless Receiver is warranted to be free from defects and workmanship for a period of 2 years from date of manufacture. Elk makes no warranty, express or implied, including that of merchantability or fitness for any particular purpose with regard to batteries used with wireless devices. Refer to Elk's website for full warranty statement and details.

### FCC AND IC COMPLIANCE STATEMENT:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- This device may not cause interference.
  - This device must accept any interference, including interference that may cause undesired operation of the device.
- L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
- L'appareil ne doit pas produire de brouillage;
  - L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
