HD video surveillance made easy.

VMAX® ip PLUS™
Complete IP Video Solutions

Plug and Play IP NVRs, Managed from Anywhere

Plug and Play IP NVRs

VMAX ip PLUS™
Complete IP Video Solutions

VMAX® IP Plus™ NVRs record and manage IP cameras up to 5MP in resolution.

3 Minute INSTALL

The VMAX® IP Plus™ is an easy to use PoE NVR that allows you to go from power up to monitoring in less than three minutes! The NVR is available in 4-*, 8-* and 16-channel models with bonus management for up to *five additional channels and supports camera resolutions up to 5MP at 30fps. Easily manage your systems from anywhere.

myDW® Cloud Management Services

myDW® Cloud Management Services gives integrators and dealers instant access to all their customers' surveillance systems online, from anywhere at a single website – myDW.cloud – from or from the myDW app for iOS and Android. myDW is a simple way to manage users, receive alerts and monitor the status of all your DW systems.

Client and Event Server Remote Management Software

C3™ CMS takes video management to the next level. You are in complete command to control all your video surveillance systems in one intuitive interface. Easy-to-program alerts let you take action in real-time and manage the health of your devices.
Features:

16x Up to 16Ch PoE · DW Witness™ · PathFinder™ · CCIP™ Encryption · 30fps Real-Time Monitoring · Auto Device Discovery

- Complete installation, set up and camera configuration in under three minutes!
- CCIP™ system encryption protects against out of network attacks
- Record and manage single-sensor IP cameras up to 5MP
- Local power for up to 16 IP cameras via resident PoE switch
- DW Witness™ app turns a smartphone or tablet into a surveillance camera
- PathFinder™ auto port forwarding
- Automatic device discovery
- 0-24TB storage options
- Snapshot Notify™: camera notifications sent to an e-mail or CMS
- C3™ CMS and event server software up to 144 Channels
- Dual-stream recording

- Event notifications via e-mail, text and C3™ CMS and push notifications to mobile devices
- Mobile application for iPhone, iPad, iPod, Android smartphones and tablets and Apple TV
- Easy drag and drop management
- Instant backup during playback
- Full HD (1080p) output for local live and playback display
- Complete system analysis with real-time system, network and PoE status monitoring
- True HD and VGA simultaneous output support
- 4 sensor input, 1 alarm relay output
- Up to 4ch transaction verification via TCP and USB-serial
- E-mail event notifications with video clip
- Simple and free DDNS support for remote management

- Easy web-based client with multi-user access
- Advanced H.264 Linux embedded NVR
- Simultaneous live, playback, recording, back-up and network
- NVR health check with e-mail notification
- NVR calculation and auto-recording configuration
- Help menu on major functions
- Auto or manual firmware upgrade available
- Automatic private IP addressing
- NTP (network time protocol)
- Screen saver to protect monitor screen
- Import/export configuration between multiple NVRs
- USB mouse and GUI control
- 5 year limited warranty

ONVIF

* See last page for specifications per camera.

PathFinder™ P2P Remote Connection

- Scan QR code.
- QR code lets you connect to Cloud Recorder / Server.
- DW® Mobile™ App

Cloud Recorder / Server · Router · Firewall · No port forwarding necessary.

Easy and secure peer-to-peer remote connection without opening ports.

CCIP™ System Encryption

CCIP™ (Closed Circuit Internet Protocol) system encryption protects your surveillance system from out of network attacks.

HD Analog Resolution

UP TO 5MP

5MP · 4MP · 2.1MP / 1080p

Record and view live image from up to 5MP IP cameras, locally or over the network.

Status Monitoring

A real-time graphical representation of all system connections. Receive connection alerts via email or text.

Group Recording

Camera 1 · Camera 2 · Camera 3

Designate a group of cameras to respond to an alert from one camera.

Snapshot Notify™

Cameras · NVR · Report Schedule · Snapshot Notify™ email · Computer and mobile device

Set up interval camera notifications to be sent to an e-mail or CMS.

Push Notifications via the myDW App

Cameras · Connection lost · NVR · Push notifications sent to mobile devices
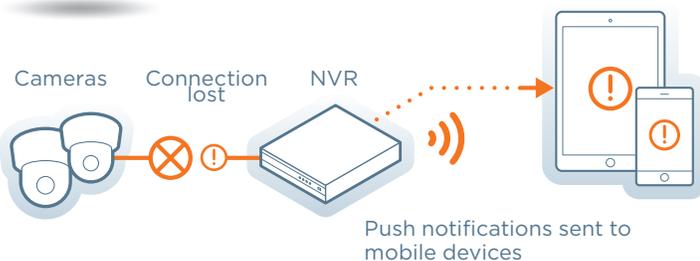

DW's recorders can send an event notification to your mobile device via the myDW app.

DW® Witness™ App turns your phone into a video surveillance camera!

The DW® Witness™ app instantly turns your smartphone or tablet into a video surveillance camera. With the press of a button, start transmitting live video to your VMAX® IP Plus™. It's a "black box" for personnel on patrol.
